## 1. INVITATION

- 1.1 The Municipal Infrastructure Support Agent (MISA) hereby invites accredited or validated training service providers to submit proposals for the provision of technical courses to municipal officials. MISA has a mandate to provide infrastructure related technical support to municipalities and assist them in building their technical capacity to sustainably render services to communities.
- 1.2 MISA has to achieve this strategic mandate through the provision of technical support and strengthening of municipal capacity to plan, deliver, operate and maintain infrastructure. It, therefore, intends to create a panel of accredited or validated training service providers to offer credit bearing and non-credit bearing occupational skills programmes to municipal officials who are involved in the operation and maintenance of infrastructure and equipment.
- 1.3 The occupational skills programmes should be aimed at upskilling and reskilling of municipal officials who are responsible for infrastructure and equipment in the following service delivery areas:
  - Water and sanitation;
  - Roads and stormwater;
  - Energy provision;
  - Solid waste management; and
  - Facility management. (Machine and Equipment Operator)

## 2. BACKGROUND

- 2.1 MISA is a government component, in the Department of Cooperative Governance (DCoG), established in terms of Section 7(5) (c) of the Public Service Act of 1994 (as amended) and in terms of Government Gazette No 36634/2013. It has been established to provide technical advice and strengthen the capacity of municipalities to plan, deliver, operate and maintain infrastructure effectively and efficiently.
- 2.2 MISA provides training opportunities to municipal officials who are involved in infrastructure operations and maintenance for them to qualify as artisans, through the recognition of prior learning programme (RPL). There are, however, some officials who do not meet the minimum entry requirements. They, therefore, need to be supported through skills programmes. This will lead them to acquire one or more-unit standards so that they can possess certain skills leading to a credit on the National Qualifications Framework (NQF) towards a qualification. Where deemed appropriate, officials will also be enrolled for non-

credit bearing skills programmes which are deemed critical for performing their work effectively and efficiently.

- 2.3 In order to execute its mandate, MISA invites qualified and interested training service providers with capacity to provide credit bearing and non-credit bearing skills programmes in the abovementioned technical areas. In evaluating the bids, **preference will be given to bidders who shall have submitted evidence of accreditation or validation by relevant authorities to provide training in the area(s) of interest. In this regard, proofs should come from the relevant sector education and training authorities (SETAs), any of the chambers of trade, and or the Quality Council for Trades and Occupations (QCTO)**
